Serie Select

Design Harri Korhonen 2001 .....

Select is a balanced and comprehensive design furniture collection for hotels, lounges, conference rooms to auditoriums, dining rooms, cafeterias, classrooms etc. The distinct form and numerous material and leg options offer complete freedom to create different furnishings for interiors. The shape of Select gives a hint of comfort and Select fulfils that commitment. In this brochure we show some different set ups, but for a creative mind Select works as a perfect tool. That´s why we´ve kept the shape simple and the versions versatile.

LIFT

SOFT

A very comfortable easy chair with a 10° sitting angle. 5° sitting angle for meeting applications.

MEDIUM

As comfortable as Soft, but more upright version with a 5° sitting angle. Recommended for meeting rooms and restaurants.

MEETING

A bit larger meeting chair than Medium with a 5° sitting angle.

MEETING EXTRA

Built-in lumbar support, height adjustment and a tilting backrest which adjusts automatically in proportion to users body weight.

LARGO

Spacious easy chair with a 10° sitting angle. 5° sitting angle for meeting applications.

LARGO D

Spacious easy chair with a 10° sitting angle. 5° sitting angle for meeting applications. D version with closed, upholstered armrests.

LARGO XL

A large easy chair with neckrest. For entrance halls and hotel rooms. Swivel as an option. Sitting position relaxed.

BAR

A very comfortable bar chair even for longer sitting (compare to Medium). Version Lift is possible to lower to almost dining height.
