QUALITY MEETS DESIGN

T1 MEETING TABLE

Design: byKATO

T1 TABLE – WITH OPTION FOR AN EXTRA WIDE TABLETOP

The T1 table is designed by byKATO. A table with character and lightness. A timeless style that fits into its surroundings. A beautifully designed table built on good craftsmanship, which is displayed in details such as visible joints. The T1 table has won the Wallpaper Design Award – one of the international design industry's more distinctive markers of quality.

The table is available in five standard sizes and furthermore sizes with extra widths. In fact, the table is available in widths of up to 160 cm, which makes it particularly suited to settings such as boardrooms and conference rooms, where extra distance may be desired for formality or just for additional space around the table.

The base is available in solid oak with surface treatments of black lacquer, white matte lacquer or clear matte. The tabletop is available in a wide range of colours and materials. This maximises the options for creating exactly the table that fits into your context.

The T1 table comes as standard in lengths up to 800 cm and widths up to 160 cm, making it ideal for conference rooms.

PRODUCT HIGHLIGHTS

- Large selection of lengths and widths
- Available in lengths up to 800 cm as standard but longer is possible
- Available in widths up to 160 cm
- Tabletop options in many materials and colours
- The number of bases is adjusted to the length of the table. The limited number of bases means that they take up as little space as possible.
- High-quality table built on good craftsmanship
- Recipient of the Wallpaper Design Award
- The B2 bench fits the table perfectly when creating a more informal look.
