About the designer

As a newly graduate from the Royal Danish Academy of Fine Arts in 1955, **Jørgen Rasmussen** started his own studio together with his twin brother Ib Rasmussen. With a keen eye for functionality and simplicity Jørgen Rasmussen also proved to be an excellent designer, with the Kevi chair as his master piece.

The chair was originally designed in 1958 for the Danish company KEVI, for whom Jørgen Rasmussen and his brother, initially designed a villa. Subsequently Jørgen went on to design the iconic office chair.

The history of the Kevi Chair

1958	The Kevi Chair is designed on request from KEVI Furniture by architect Jørgen Rasmussen.
1965	Jørgen Rasmussen invents the double-wheel castor.
1958-1982	KEVI® chair is produced by furniture company KEVI.
1982 -2007	KEVI is acquired by the furniture company Fritz Hansen who takes over the production of the Kevi Chair.
2006	The Kevi Wheel is included in the Danish Ministry of Culture's "Cultural collections" due to its "positive impact on millions of people all over the world."
2007	Engelbrechts Furniture acquires the rights to produce and sell the Kevi Chair.
2016	The Kevi Chair with 4 legs is introduced by Engelbrechts.
2021	Montana Furniture acquires Engelbrechts and the rights to the design icon. Montana launches Kevi 2060 in 8 Montana colours.
2022	Kevi Kids is relaunched in a recycled plastic version.

The double wheel castor

In 1958, the common office chair was fixed and not flexible. Jørgen Rasmussen wanted to make a chair that would work in any environment and suit a wide range of users. Jørgen Rasmussen was focused on **work environment** and the **freedom of movement** in his approach to design.

In 1965 Jørgen Rasmussen developed the double wheel castor. The double-wheel castor was inspired by the flexibility of an air plane's front wheels. The double-wheel meant less tear on floor and carpets and doubled the flexibility for the user with the low anchored connector.

Today, the Danish invention is used in numerous industrial designs improving the well being and work conditions of millions of people all over the world.

Hand-drawn sketches of the double wheel castor design. The sketches include:

- A side view of the castor assembly.
- A top-down view of the castor.
- A side view of the castor.
- A side view of the castor.

ICONIC DESIGN

Double wheel castor with soft threaded edge

The idea

“The better you sit, the more you get done.”

Everything is visible, nothing is superfluous nor excessive: seat, back, base and controls.

The construction of the Kevi chair started an ergonomic revolution in both the work place, in schools, institutions and in the private home office.

Acknowledging that humans are differently built, Jørgen Rasmussen added flexibility in the back part, allowing space and room for the user's lower back and spine. The height adjustable function made the chair accessible for users of all heights.

“Some chairs are too technical, but with Kevi we have tried to keep it simple to secure a durable and comfortable chair.”

ICONIC DESIGN FEATURES

The unique Kevi screws are visible in seat and backrest in stools, office chairs and 4 leg chairs

ICONIC DESIGN FEATURE

Aesthetic adjustment tools under the seat are designed to be visible and easy to handle

ICONIC DESIGN

The iconic Kevi backrest is ergonomically and shaped with minimalistic distinction

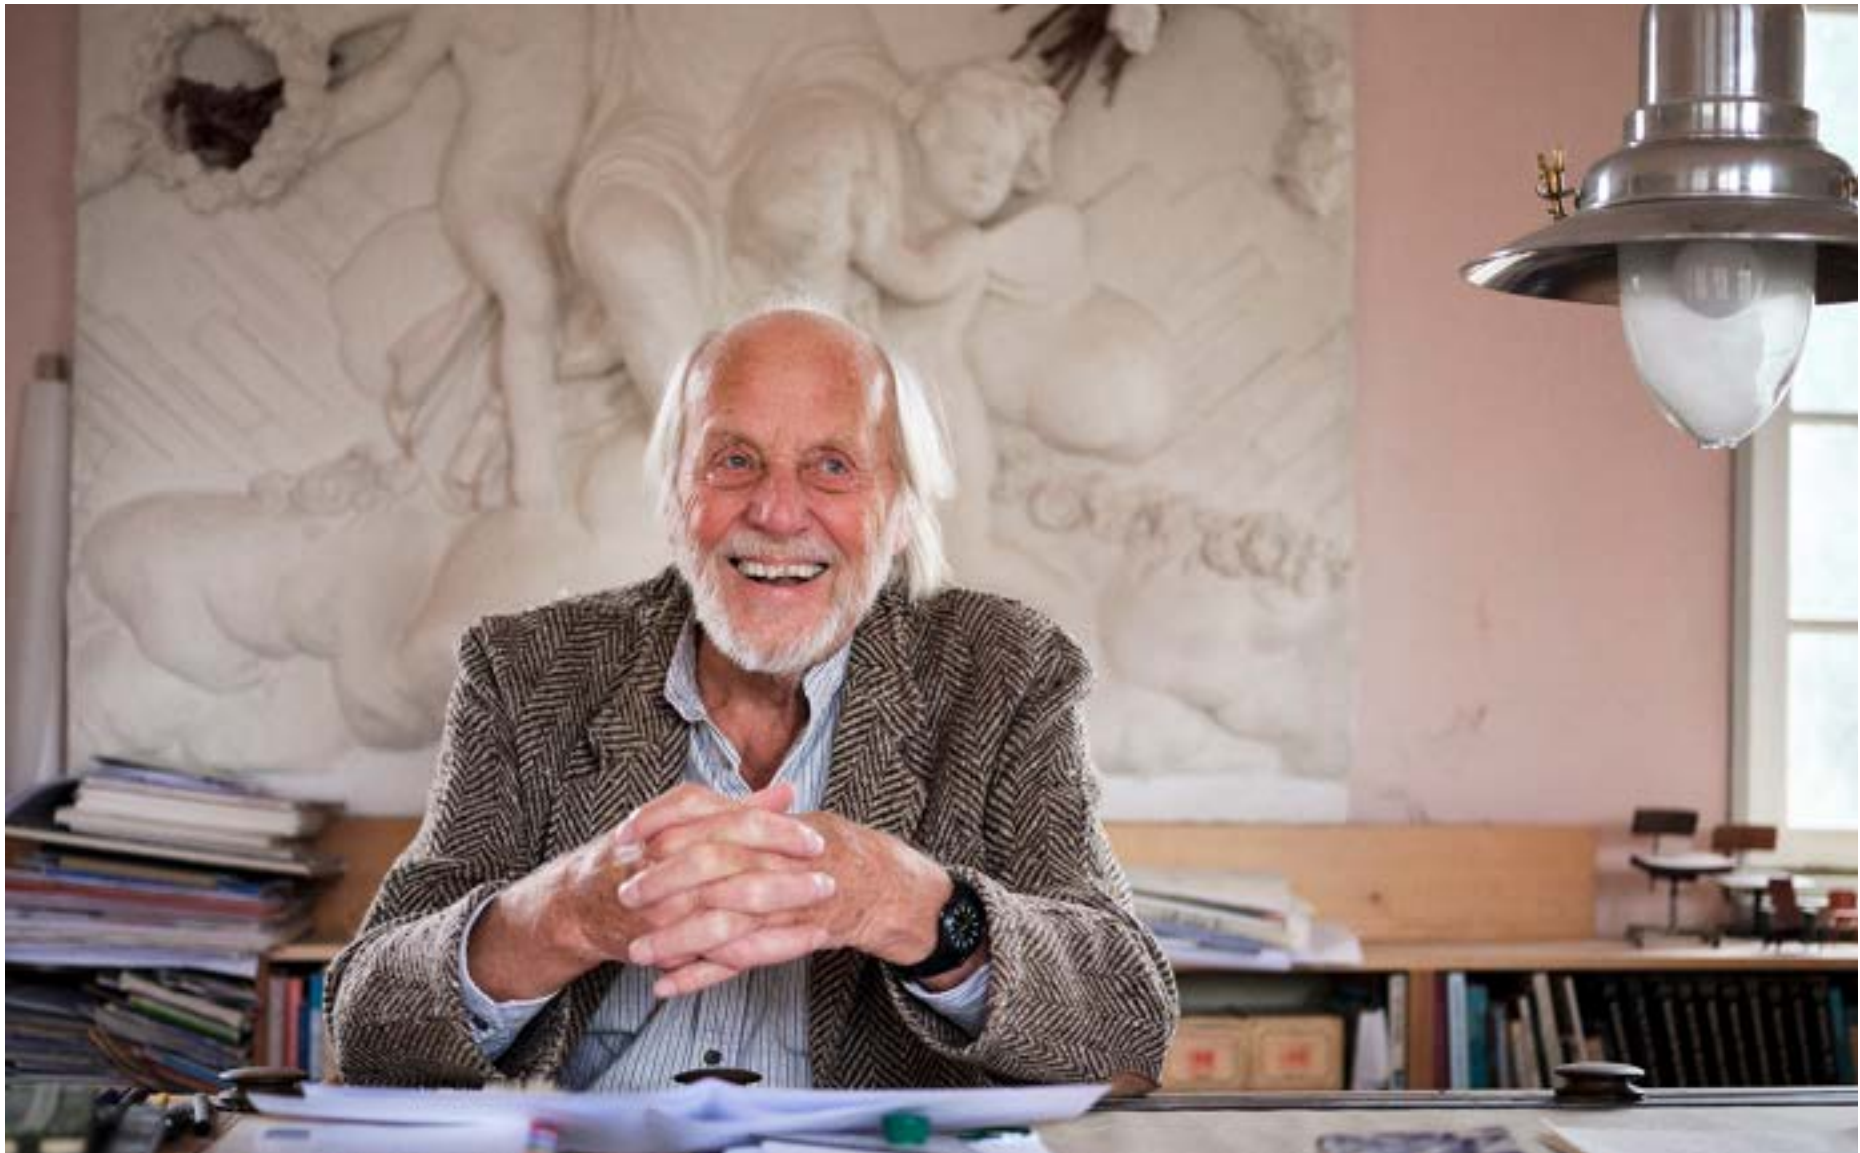

THE KEVI® CHAIR

One handle to adjust both the height and angle of the backrest.

Kevi Office Chairs

Since 1958 a wide range of office chairs with the iconic Kevi design has been developed.

Chairs for different occasions and needs, with two things in common: they are positioned on castors with a swivel base.

Today Montana holds a wide assortment of the Kevi office chair. Developed throughout decades for different functions, users and purposes.

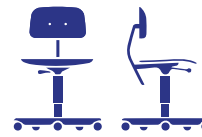

THE KEVI® CHAIR

2534U is available in various upholsteries to match the Montana colour universe

THE KEVI® CHAIR

The lacquered swivel base was launched in powder coated colours in 2023 and can be applied for all Kevi chairs on castors.

KEVI® 2533

The **Kevi 2533** is the closest we come to the original design from 1958.

The frame is a 5 swivel aluminium base with a compression moulded veneer seating and backrest available in oak, white and black lazured veneer as well as 6 Montana colours. The swivel base is also available in 6 Montana colours.

The **Kevi 2533** holds the EU Ecolabel without upholstery.

Kevi 2533 is available in three upholstered versions (app. 1 cm medium soft upholstery):

- Upholstered inner side, seat
- Upholstered inner side, seat & back
- Fully upholstered seat & back

Kevi 2533 holds the DIN EN 1729 (European Standards), TÜV Certificate (German quality, safety and product tests) and GS Certificate (German safety standards).

Kevi 2533 is available with tilt function.

Dimensions: SH 38-51 x D 56 x W 56 cm
Available in height A, B, C, D.

THE KEVI® CHAIR

Kevi 2533 with in monochrome frame and base

KEVI® 2534U & 2533

Left: Kevi 2534U always delivered with 4 cm hard cushion and full upholstery

Right: Kevi 2533 with **optional** 1 cm cushion and full upholstery

KEVI® 2534U

The **Kevi 2534U** is today considered a national heirloom. With its comfortable seating, full upholstery in either textile or leather and an aluminium swivel frame, which is also available in 6 Montana colours, it is an icon in many homes and offices across the world.

Kevi 2534U is available in 4 heights and with a wide range of EU Ecolabel certified textiles.

Kevi 2534U is always delivered with 4 cm hard cushioned seat and back and is always fully upholstered. The chair can be ordered with a tilt function. **Kevi 2534U** is available with tilt function.

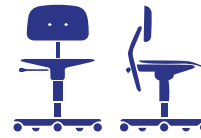

Dimensions: SH 40-53 x D 56 x W 56 cm

Available in height A, B, C, D.

THE KEVI® CHAIR
2534U with Kvadrat Textile upholstery

KEVI® 2543

Kevi 2543 is specially developed to meet the requirements for longer work periods (up to 8 hours.)

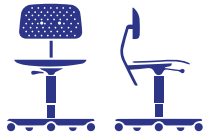

The tilt function combined with a updated shell shape means it has passed the test for EN 1335-1:2000 and EN 1335-2:2018.

Kevi 2543 meets the requirements for dimensions and safety for office work chairs which are defined by the European standard EN 1335-1. The standards take work safety, health and ergonomics into consideration.

Dimensions: SH 40-53 x D 56 x W 56 cm
Available in height A,B,C,D.

THE KEVI® CHAIR
2534U with active tilt function

KEVI® AIR

The **Kevi AIR** is a light weight office chair.

The shell is cast in 100% recycled plastic where 7% glass fibres have been added.

The chair's seat and backrest has a perforated circular pattern. The chair's surface is low maintenance, light weight and easy to clean.

Kevi AIR fits the modern home office or a classroom. **Kevi Air** is available with tilt function.

Dimensions: SH 40-53 x D 56 x W 56 cm

Available in height A, B, C, D.

KEVI® 2532

The **Kevi 2532** is a flexible and height adjustable stool on wheels.

The seat is an ergonomically rounded wooden seat of 9 mm compression moulded veneer.

Both seat and swivel base are also available in 8 Montana colours as well as oak veneer and polished aluminium.

Dimensions: SH 38-51 x D 56 x W 56 cm
Available in height A, B, C, D.

THE KEVI® CHAIR

2532 stool is also available in powder coated swivel

KEVI® KIDS

The **Kevi Kids** chair was relaunched in 2022 and is a mini version made for children in the pre-school age.

The frame is a powder coated 5 swivel aluminium base with a moulded seat and backrest made from 100% recycled polypropylene in four colours matching the frame.

Dimensions: SH 31.5-41.5 x D 46 x W 48 cm

THE KEVI® CHAIR

Available in 4 heights: A, B, C & D - The Aluminum footring is diameter Ø56 cm. Double wheel castors with brakes and soft treads are standard for A & B heights.

Glides are standard for C & D heights. Foot ring is recommended for the taller models C & D

Kevi Chairs on four legs

After nearly 60 years on wheels, it was time to renew the chair. The sketches for the chair had been in Jørgen Rasmussen's archives for years and in 2016, it became reality.

The four-legged Kevi was born.

Kevi with four legs is a re-make of the classic swivel chair from 1958, with the same seat and back as the **Kevi 2533**.

THE KEVI® CHAIR

Kevi 2060 is certified with the EU Ecolabel

KEVI® 2060

The **Kevi 2060** is a four leg stackable version of the iconic chair.

The seat and backrest is manufactured in 9 mm. compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer. Seat and backrest are available in oak or a variety of lacquer colours. The chair is available with upholstery on oak or black veneer.

Dimensions: H 79 x SH 47 x D 51 x W 53 cm

Stacks 12 pcs on floor - 25 on trolley

Kevi 2060 holds the EU Ecolabel.

THE KEVI® CHAIR

Kevi 2060 stacks 12 on floor and 25 on a trolley

KEVI® 2070

The **Kevi 2070** is a stackable dining chair with seat and backrest in compression moulded veneer.

The chair is designed by Jørgen Rasmussen with hospitality in mind, that is restaurants and cafés that want to elevate the dining experience to cosy, homey and Scandinavian level.

The backrest of the **Kevi 2070** has integrated comfort flexibility. The natural and Scandinavian design is a contemporary and modern addition to the Kevi family.

Dimensions H 79 x SH 47 x D 50 x W 55 CM
Stacks 8 pcs on floor or 15 pcs on trolley

THE KEVI® CHAIR
Kevi 2070 in black veneer with JW Table

KEVI® 2063 LOUNGE

Kevi 2063 is a low centred lounge chair with a wide base and seat.

The seat and backrest is manufactured in 9 mm compression moulded veneer which is available in oak or a variety of lacquer colours.

The frame is available in either chrome or in a powder lacquered colourful version.

The chair is available with upholstery on oak or black veneer.

Dimensions H 73 x SH 43 x D 58.5 x W 64 cm

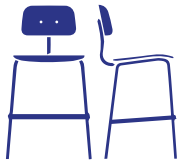

Stacks 8 pcs

THE KEVI® CHAIR

Kevi 2063 lounge chair with full upholstery and powder lacquered frame

KEVI® 2061 COUNTER

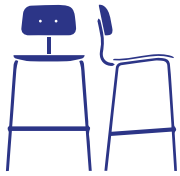

Kevi 2061 is a stackable counter height version of the 4 leg chair. The seat and backrest has the iconic Kevi design features.

The seat and backrest is manufactured in 9 mm. compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer. Seat and backrest are available in oak or a variety of lacquer colours. The chair is available with upholstery on oak or black veneer.

Dimensions H 108 x SH 66 x D 51 x W 55 cm

Stacks 12 pcs

KEVI® 2062 BAR

Kevi 2062 is a stackable bar height version of the four leg chair.

The seat and backrest is manufactured in 9 mm compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer.

Seat and backrest are available in oak or a variety of lacquer colours. The chair is available with upholstery on oak or black veneer.

Dimensions H 108 x SH 76 x D 51 x W 55 cm

Stacks 12 pcs

KEVI® 2051

KEVI® 2051 is a Danish design classic.

It is stackable and does not take up too much space and therefore the perfect solution for an extra seating option in both homes and offices. The design is honest, simple and highly functional.

The seat is manufactured in 9 mm. compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer. Seat is available in oak veneer or a variety of colours.

Dimensions H 47 x D 43 x W 43 cm

Stacks 8 pcs

KEVI® 2052

Kevi 2052 is based on the regular stool but raised to fit bar height. **Kevi 2052** represents clean cut, modern Scandinavian design where nothing is superfluous.

The seat is manufactured in 9 mm compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer.

Seat is available in oak veneer or a variety of lazure colours.

Dimensions H 76 x D 42 x W 42 cm

KEVI® 2053

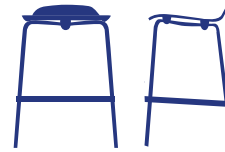

Kevi 2053 is a counter height stool.

The seat is manufactured in 9 mm compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer.

Seat is available in oak veneer or a variety of lazure colours.

Dimensions H 66 x D 42 x W 42 cm

KEVI® 2067

Kevi 2067 was launched in 2021 and is the newest addition to the **Kevi** family. The light weight look combined with the ergonomically shaped seat and stackable frame makes this counter stool an elegant choice for meeting areas, restaurants and bars or the kitchen counter at home where you want to keep an overview of the scenery.

The seat is manufactured in 9 mm compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer. Seat is available in oak veneer or a variety of lacquer colours. The chair is available with upholstery on oak or black veneer.

Dimensions H 70.5 x D 43.3 x W 46.5 cm

Stacks 8 pcs on floor

KEVI® 2068

Kevi 2068 was launched in 2021 and is a new addition to the **Kevi** family. The light weight look combined with the ergonomically shaped seat and stackable frame makes this counter stool an elegant choice for fixed meeting areas in bar height or bars and cafés where you want to keep an overview of the scenery. The seat is manufactured in 9 mm compression moulded veneer which is placed on a 18 mm tubular frame in polished chrome or powder coated lacquer. Seat is available in oak veneer or a variety of lacquer colours. The chair is available with upholstery on oak or black veneer.

Dimensions H 80.5 x D 41.9 x W 46.5 cm

Stacks 8 pcs on floor

The personal chair

Kevi chairs are available in a wide range of different materials, colours, textiles, upholstery methods, castors and veneers.

The design development is based on a wide spectrum of functions and demands from customers throughout the years. Since 1958 all design developments have grown from Jørgen Rasmussen's design studio.

Some developments are based on original ideas from the 1950s or 60s, others are innovative solutions that have been made possible through new possibilities in manufacturing, engineering and materials.

The KEVI® Tables

In 2016 the Kevi Table was launched.

The materials, shape and iconic design features from the original Kevi design were translated into a table suited for a wide variation of functions.

The tables fit both the residential, hospitality and contract market - with the clear characteristics from the Kevi seating family.

KEVI® 2011

Kevi 2011 is a round seating table with table top diameter Ø90 cm. The table top is beautifully finished with a rounded curved edge.

The table top is finished with the iconic Kevi screws that add structure and steadiness to the tube frame in Ø22 mm. The table frame is available with either chrome or black powder coat and the table top is available in either oak or black stained veneer.

The Kevi table can be stacked up to 4 pcs.

KEVI®

- A low impact option

At Montana, we take our environmental responsibilities seriously. For us, sustainability is using high-quality materials and robust craftsmanship to produce long-lasting products that are neither harmful to you nor the environment.

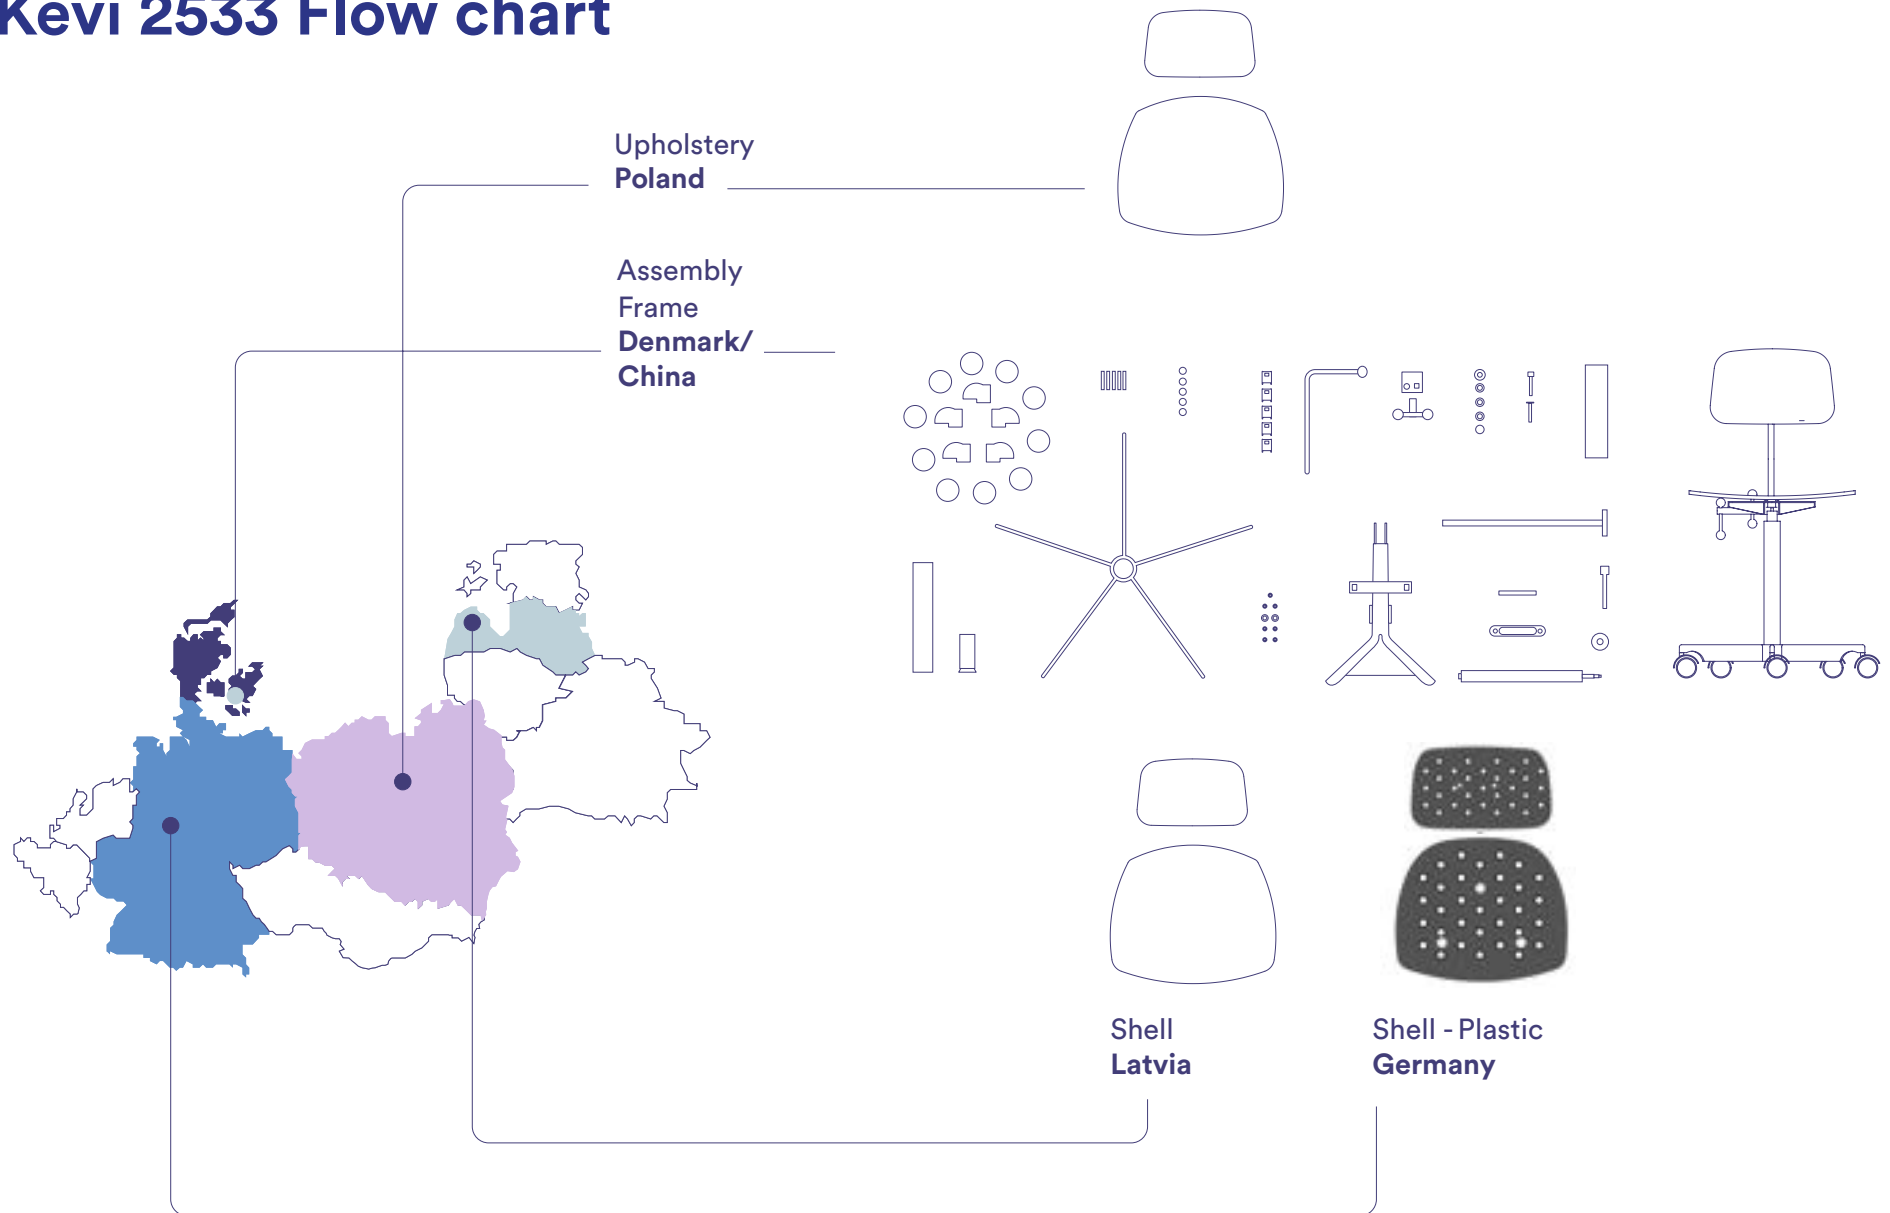

All Kevi products are produced and assembled in Europe, close to our largest markets. The iconic castors are produced in Denmark. Spare parts, accessories and customisation is available for existing products that might need a transformation, a repair or a make-over after years of use. Kevi holds a 5 year warranty on all available models.

CASES

A modern office interior with a white desk, a green chair, and a green wall. The word 'CASES' is overlaid in the center. The room features a large window on the left with white curtains, a wooden floor with a herringbone pattern, and a red shelving unit on the right. The desk is white with a green chair in front of it. A green storage bin is on the floor to the left of the desk. The background wall is green and has several papers pinned to it. A red bag and a pink vase are on a dark wooden cabinet behind the desk.
