

HEB Tables

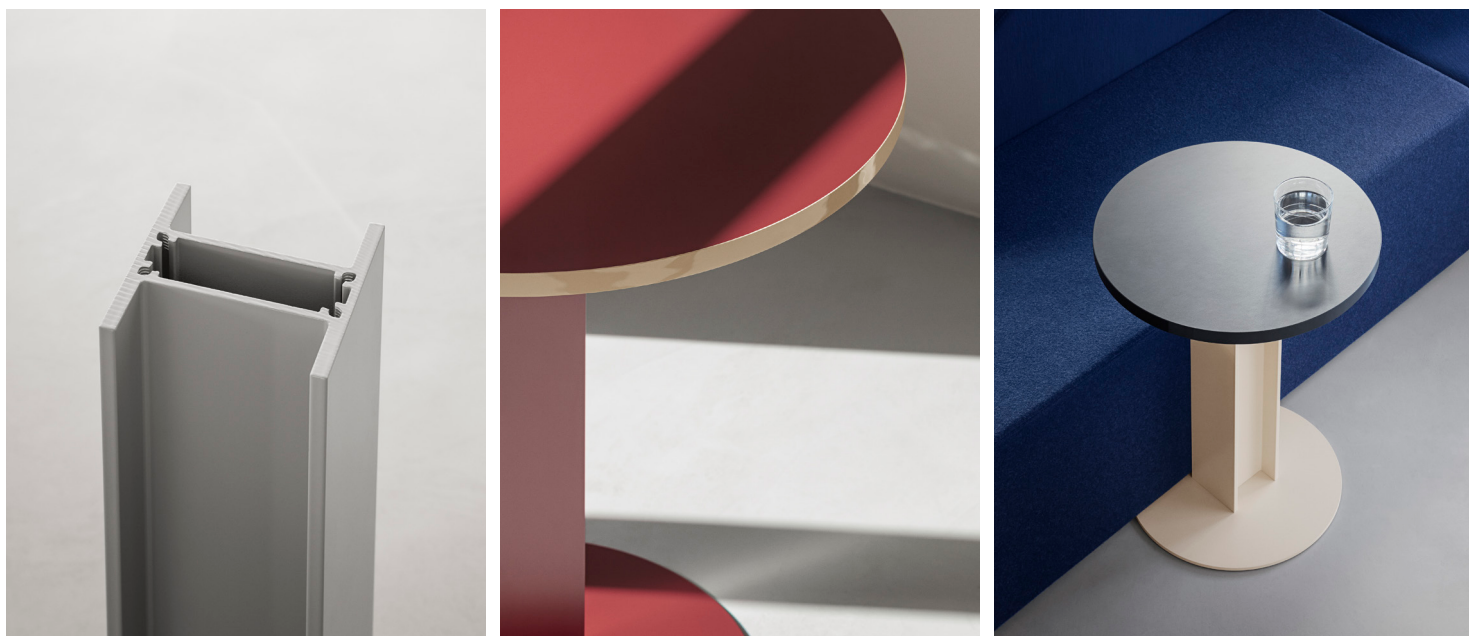

Product sheet — 02062023

+Halle®

The HEB tables are versatile, self-defining, expressive and suitable for any setting, produced as high and low, small and large units, with extruded industrial HEB beams as their durable base.

The tables are charming and grounding, acting as visual as well as social touchstones, with the ultimate purpose of encouraging people to gather around, and between them create a shared world.

Details

HEB Tables collection

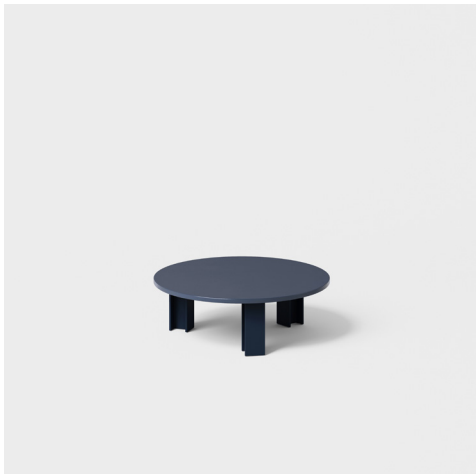

HEB Table 01 Ø420 H550

HEB Table 02 Ø700 H734

HEB Table 03 W600xD700 H734

HEB Table 04 Ø900 H300

HEB Table 05 Ø1700 H73

Designed by Krøyer-Sætter-Lassen

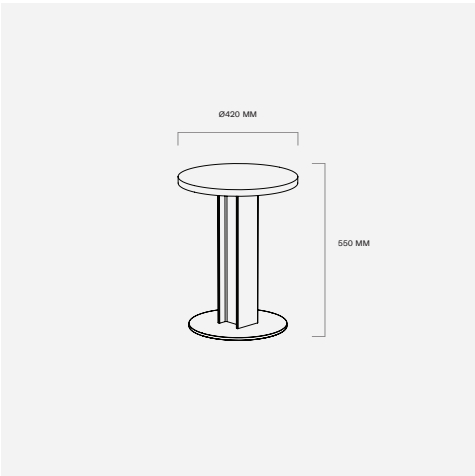

When it comes to breathing industrial cleverness into everyday objects, the Copenhagen-based Design duo belongs to a new generation of Danish designers who are not afraid to include resourcefulness into their game. While Emil Krøyer and Mads Sætter-Lassen have spent the last decade incorporating great material solutions, it is through a cross-disciplinary approach, that the duo continues to impress, combining economy with lush cabinetmaking, functional metalware, and thoughtful ergonomics.

Specifications

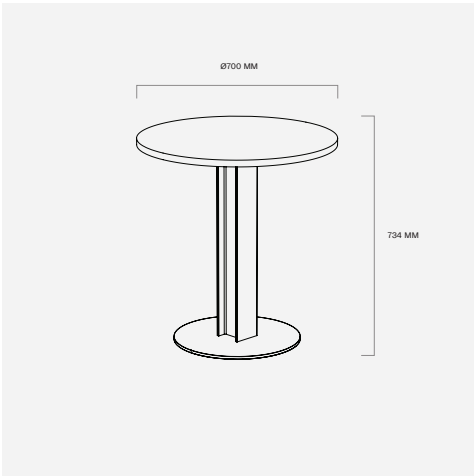

Materials

Table top / edge band:
Chipboard with laminate on top, black contra papir on the backside. Monted with a ABS edge. Insert nuts for mounting. Total thickness 23 mm.

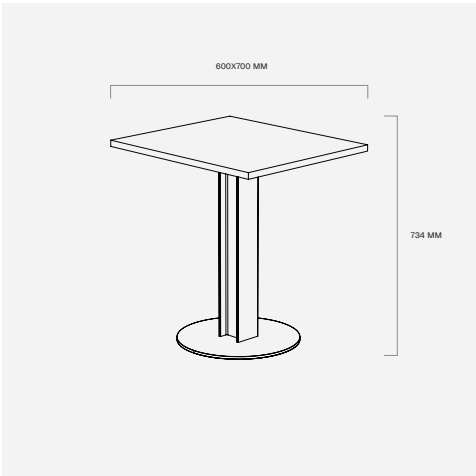

Table base:
Profile in extruded aluminum - plates in steel. All powder coated. Glides - Polyethylene (PE).
